

Interior Designer

This position provides a significant opportunity for a dynamic person with a degree in Interior Architecture/Interior Design, 5+ years of experience servicing commercial clients, and a desire to take their career to a higher level. Relocation to Honolulu is REQUIRED.

In this position, you will join an established Honolulu Architecture and Interior Design firm as the number two person in a fast-paced Interior Design Studio environment. You will be expected to successfully contribute to the management of concurrent Client Project/Design project activities while also participating in the ongoing business management and growth of the Interior Design Studio.

On top of high design and technical architecture and design abilities other proven skills/traits we are looking for in this person are:

- desire to be a leader in the firm and our profession,
- entrepreneurial spirit,
- relentless drive for personal and professional success,
- and outstanding “do what it takes” team attitude and
- no tolerance for unclear/ineffective communication between project team members and clients

You will also need:

- exceptional Project Management and Organizational skills;
- to show and provide complete proficiency, not just familiarity, with:
- industry software including InDesign, Photoshop, AutoCAD, Revit and MS Office applications. Working knowledge of Spexx and/or Studio software a Plus
- Preparing:
- preliminary and final design presentations and related drawings,
- construction drawings,
- FF&E specifications,
- Managing procurement and installation activities
- The ability to render the design in the form of drawings or illustrations using computer-assisted drafting systems (CAD, Revit), Sketch-up, Photoshop, InDesign, or by hand

- Knowledge of suppliers and manufacturers commonly used in contract interior design work
- Experience working collaboratively with a multi-discipline design team including contractors, architects, and engineers
- Strong knowledge and ability in office space planning and furniture systems and able to develop and prepare furniture plans, reflected ceiling plans, finish floor plans, interior elevations, and finish schedules

Core markets are hospitality, workplace, restaurant, retail, education, healthcare, and government with a rare residential design project. We expect that you will have the desire, ability, and skills to participate in marketing opportunities, including building, maintaining, and expanding client relationships, which will be an important part of your responsibilities.

To be considered for this position you must submit/include a portfolio of your work. In exchange for lending us your time, talent, hard work, camaraderie, laughter, etc. we offer competitive base compensation with an opportunity for additional performance and other compensation, We also offer a complete range of excellent benefits including 401(k) with employer match, Health Insurance including Major Medical, Prescription Drug, Dental/Vision, paid time off, and other benefits.

Our work hours are generally 8A-5P Monday through Friday including in office and some remote working. Some travel, mostly daily, may be necessary.

Our firm is an equal opportunity employer and you will be required to show ongoing eligibility to work in the United States.
